

March 30, 2020

Dear Valued Client:

We wish that you and your families are safe and healthy during this time.

Our staff are operating in a hybrid fashion both within the office and at disparate home offices leveraging our Cloud technology. As an Essential Business we continue to comply with the guidance and directives for maintaining a clean and safe work environment issued by the Department of Health.

For over 30 years we have been helping our clients “leverage technology and put it work for them!”. We are proud to continue to support you and your team with remote user’s support, solution education and changes on demand. Most situations can be addressed by our technical team remotely, while perhaps frustrating and time consuming as compared with an engineer onsite. This does however keep both teams safe from each other. We are all in this together. Under emergency situations we are available on-site 24x7.

To reach us please call our office at 845-561-4440. We will respond on a first come, first serve basis or depending on the volume, on a triage basis. You may also choose to email our service team @ dispatch@itc-communications.com

We thank you for your business.

Sincerely,

Keith Studt
